SUMMARY

Pre-final year B.Tech CSE student with a strong interest in Artificial Intelligence, Machine Learning, and Data Science. Skilled in Python, C++, Passionate about problem-solving, research, and collaboration, with a growing foundation in deep learning and full-stack development.

TECHNICAL SKILLS

Programming Languages: Python, C++, SQL, MATLAB

Cloud Platforms: AWS (EC2, S3, Lambda, RDS)

Libraries & Tools: NumPy, Pandas, Scikit-learn, Git, Docker

Databases: SQL (Database Design, Query Optimization), MongoDB

PROJECTS

Campus Learning (Educational Platform)

Full-Stack Web Development

Jan 2025 – Present

React, Node.js, MongoDB

- Developed a full-stack web platform to centralize academic resources
- Engineered a role-based access system for students and faculty to streamline course management
- Implemented interactive discussion forums and a real-time notification system

Kisan Sarathi (Agriculture Advisory App)

Mobile Application

July 2025 – Present

Android, Firebase, REST API

- Deployed an LLM for instant crop disease diagnosis using image analysis
- Utilized IoT sensor networks to stream live field data for crop management advice
- Designed a simplified UI to facilitate farmer interaction with the AI diagnostic tool

EXPERIENCE

Cybersecurity Intern

Tamizhan Skills

Aug 2025 – Sep 2025

Bhopal, India

- Built a phishing detection tool using Python and Scikit-learn to flag malicious URLs
- Developed a multithreaded port scanner in Python using the socket module.
- Presented findings at weekly research meetings

EDUCATION

Vellore Institute of Technology

B.Tech. in Computer Science and Engineering

Bhopal, India

Sep 2023 – May 2027

SGM International School

Senior Secondary Certificate

Kanpur, India

April 2020 – July 2022

CERTIFICATIONS

- Introduction to Machine Learning by IITKGP, NPTEL
- Introduction to Data Analytics by META, Coursera
- Deep Learning by IIT Ropar, NPTEL
- Industrial IoT Market and Security by University of Colorado Boulder, Coursera
